Antea Group

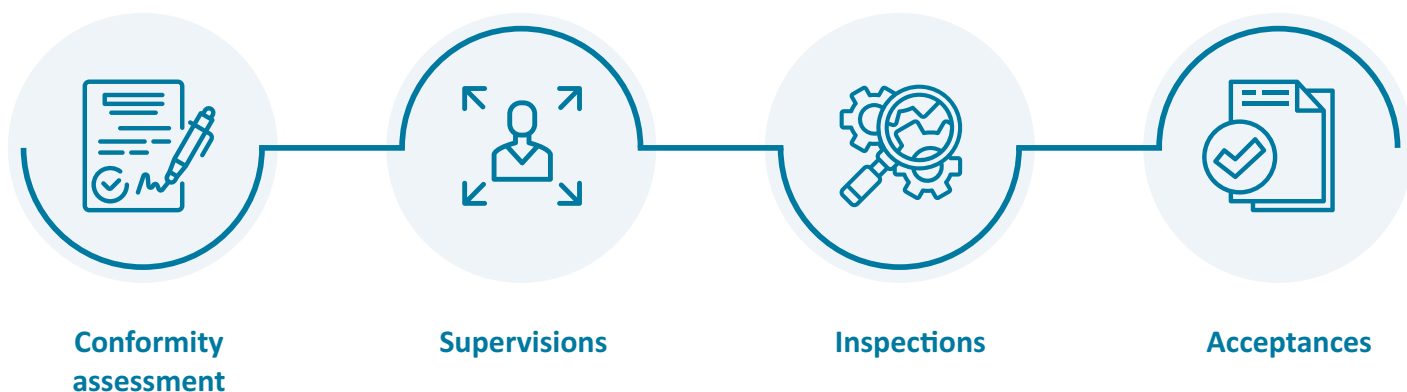

Understanding today.
Improving tomorrow.

www.anteagroup.pl

Antea Polska S.A. is part of the international Antea Group and one of the leaders in providing engineering and consulting services in Poland with nearly 30 years of experience in the market. Our offer covers all phases of the investment implementation. We provide professional and comprehensive services to the public and private sectors in the areas of renewable and thermal energy, gas, broadly understood infrastructure, marine and water management, environmental protection and adaptation to climate change.

We support our customers in the implementation of their investments in accordance with quality standards, applicable legal regulations and contractual conditions throughout the entire product life cycle - from the review of documentation, through the manufacturing and assembly phases to the acceptance. We ensure that products, devices, equipment and installations are manufactured in accordance with the required standards.

Our services include:

- Inspections and factory supervision of the manufacturing stage (welding, painting)
- Inspections and supervisions of assembly works
- Inspections of production progress or project realisation in accordance with the schedule
- Mechanical inspections
- Electrical inspections
- FAT inspections
- Acceptances before the shipment
- Opinions on welding and quality documentation

Our experts hold IWE certifications along with certificates of competency, NDT certifications, FROSIO level III and NACE level II certifications.
